Debit Card Use

101. The Customer undertakes to dispose of the funds on the current account and to use the corporate DCs issued by the Bank in the manner and under the conditions defined in the Agreement, these General Terms and Conditions and the requirements of the applicable legislation in the country of the payment transaction.

102. The Customer should not allow the use of the debit card for payments associated with goods and services that are prohibited by a regulatory deed issued by a competent authority in the country of use.

103. The Cardholder of a corporate DC undertakes to store the card reliably and securely, protecting it from loss, theft, tampering, unauthorized access or use in any other illegal way.

104. The cardholder of a corporate DC shall be bound to keep secret the personal characteristics of the card (card number and validity term) and personalized security tools (PIN code, CVC code and static password for confirmation of 3D Secure Payments, etc.), by not sharing, saving or storing them with the card.

105. The Cardholder may perform card operations in online and offline mode.

106. The online operations shall be executed after establishing the Cardholder's identity and up to the available balance, in accordance with the limits set on the card. The account availability shall be determined by the Customer's own funds and possibly the unused portion of a credit overdraft, if there is a signed agreement in this respect.

107. With offline operations, the identity of the Customer/Cardholder, the amount of available funds and the limits set on the card cannot be verified. In case of insufficient funds on the account, the Bank shall offline account for the transactions executed with MasterCard contactless debit cards under the conditions of an unauthorized overdraft, which shall be immediately demandable together with the accrued interest.

108. The Bank shall notify the Customer (by telephone and/or by notification letter) when the available balance falls below the minimum balance required to maintain an account or an unauthorized overdraft is formed due to accrued fees, commissions, exchange rate differences and other payments related to the use of the card. If, within 30 days from the date of the notification, the Customer fails not repay its obligation, the Bank may deactivate all corporate DCs issued on the account and proceed with enforced collection of the amounts due according to the procedure provided for by law.

109. In the case of amounts restored by the Bank for disputed operations, for which data were subsequently collected that they had been carried out fraudulently or with gross negligence, the Bank shall be entitled to unilaterally collect the amounts restored from all the Customer's accounts, for which the Customer consents by signing these General Terms and Conditions.

Secure Internet Payments

110. The Bank shall register the debit cards issued by it for use of the 3D Secure Payments service as an electronic method of protection and control of payments on the Internet at merchants supporting MasterCard Secure Code (Secure Payments). The method includes the use of a dynamic and a static password – passwords to identify the Cardholder and to confirm the payments made by the latter. The service requires the use of a specific mobile phone number.

111. The Bank shall provide the Cardholder with a one-time static password which serves only for logging into the web application of the 3D Secure Payments service and should be changed. The dynamic secret code is received by the Cardholder via an SMS message to a mobile phone every time a payment is made at a merchant supporting the 3D Secure protocol.

112. The service is activated only after the registration of a permanent static password by the Cardholder at the web address of the "3D Secure Payment" application.

113. In case the Cardholder wishes to request another mobile phone number for receiving the dynamic secret code, the latter should visit in person a Bank's office and submit the corresponding request.

114. The Bank shall be entitled to temporarily limit the access to the card for making payments on the Internet until it is registered for the 3D Secure Payments service, if the Cardholder has not provided the Bank with a mobile phone number.

115.1. When making payments on the Internet, the entry of a valid dynamic secret 3D code, as well as a static password shall be equal to entering a PIN and the Cardholder shall have all the obligations for their protection, referring to the protection of the PINs as laid down in these General Terms and Conditions.

115.2. If a wrong dynamic secret 3D code and/or a static password is entered three times, the use of the service shall be blocked and the Cardholder shall submit to the Bank's office a request prepared according to the Bank's model to unblock the card and to access the service.

116. Any card operation for cashless payment, confirmed by a static password and a dynamic secret 3D code, shall be considered to have been executed with the knowledge, participation and/or consent of the Cardholder. The Bank shall assume that the card operation is ordered by the Cardholder, even if a person other than the Cardholder makes an online payment using a static password and a dynamic 3D code received on the mobile phone number specified by the Cardholder.

117. In cases where the beneficiary of payment operations executed using payment cards at the initiative of or through the beneficiary is not registered for the MasterCard Secure Code program (Secure Payments) for an additional level of security, the strong Cardholder authentication shall be carried out by the relevant merchant, acting as the beneficiary, rather than the Bank - issuer of the payment instrument. The Bank shall not be liable for unauthorized payment card transactions executed at the initiative of or through the beneficiary, where the Cardholder has consented for them without applying the Bank's procedures for strong Cardholder authentication.

Termination of a Debit Card Agreement

118.1. The Agreement for issuing and servicing a corporate debit card shall be terminated:

- a) At the request of the Customer or the Cardholder with a 7 (seven)-day written notice submitted to a Bank's office;
- b) With the expiration of the validity period of the card and if the Cardholder has not received the renewed DC within the period referred to in para. 82;
- c) Upon closing the current account to which the card has been issued in cases where the Bank unilaterally closes the account;

d) Upon deactivating the debit card, in the cases provided for in these General Terms and Conditions.

118.2. The Agreement for issuing and servicing of a corporate debit card shall be automatically renewed for a new period in the case of re-issuance of a debit card after the expiry of the validity period of the same. Adequately, the term of the Agreement shall also be extended when the card is reissued within its validity period.

119.1. Upon the termination of the Agreement for issuing and servicing of a corporate debit card, the holder of the current account to which the corresponding card is issued shall be bound to provide sufficient funds on the account for the repayment of all liabilities to the Bank associated to the concluded agreement, including all due fees, commissions and amounts related to servicing and using the payment instrument.

119.2. The termination of the Agreement for issuing and servicing of a corporate debit card shall not result in the termination of the framework agreement for the current account to which the card has been issued.
